Imaging Report FHIR IG

Candidate [Euridice Specification](#)

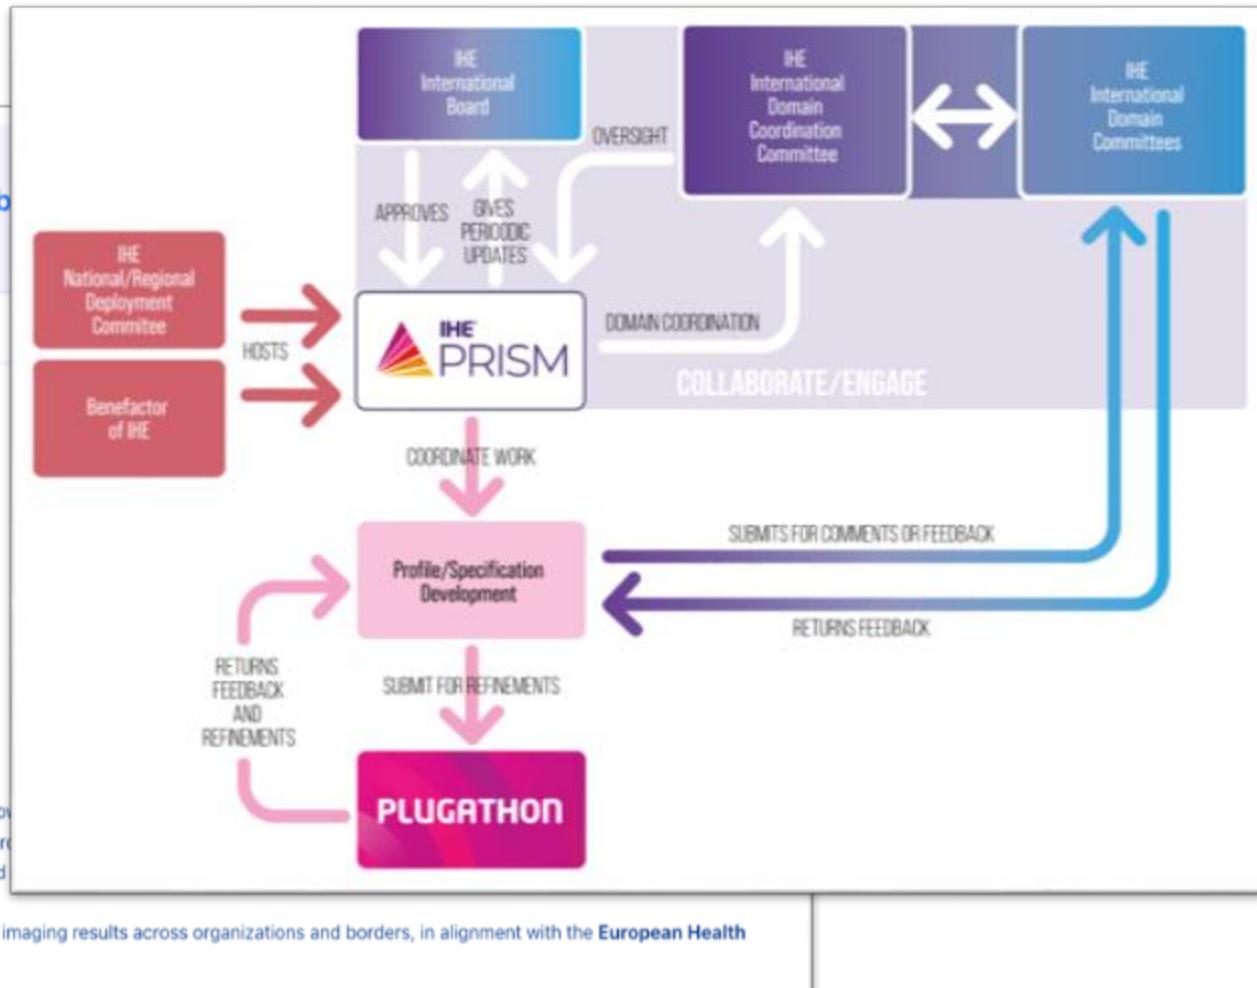

Version: 0.1.0-snapshot1 (Draft)
 Specification: [HL7 Europe Imaging Report](#)
 License: CC0 1.0 (Public Domain)

NOTE: This is an early snapshot released for review and pilot use.

[Overview](#)

The HL7 Europe Imaging Report Implementation Guide (IG) defines how imaging results are represented and exchanged using FHIR R5. It provides a harmonized approach for European health systems to share imaging results across organizations and borders, in alignment with the European Health Data Space (EHDS) and related initiatives such as the EHRxF.

It provides a harmonized approach for European health systems to share imaging results across organizations and borders, in alignment with the European Health Data Space (EHDS) and related initiatives such as the EHRxF.
