

**Scenari futuri “real life” del “New Digital Normal”  
...che la Sanità Pubblica non può perdere**

ARASS

## Scenari futuri “real life”

### Continuous Monitoring

Continuous monitoring of health vitals with intelligent analytics to notify a member of LifeCare network when needed

### Retail Clinics

Provide people with convenient access to routine care with information connected and synchronized across the ecosystem

### Connected Home

Access to my health information enriched with insights to help simplify decisions and actions

### Auto Patient Access

Intelligent personal devices become an extension of the patient facilitating automated access and information sharing

## Scenari futuri “real life”

### Virtual Care Circles

People receive real-time information and notifications that allow for more meaningful and productive interactions with doctors

### Omni-channel Experience

Personalized digital health hub supports people in improvement and maintenance of health seamlessly across interactions to make healthcare simple

### Intelligent Treatments

Treatment plans are customized based on people's personas and continuously learn based on individual actions

### Me, My Data & I

Intelligent personal devices become the center to help people improve and maintain their health throughout their life

## Scenari futuri “real life”

### Augmented Wayfinding

Intelligent machines on people and facilities communicate to provide smart assistance in physical clinical settings

### Seamless Financing

Health finances paid seamlessly behind the scenes with ongoing care coordinated

### Intelligent Machines

Transparent, real-time updates on people's relevant data allow virtual care teams to refine treatment and improve outcomes for their patients

## Scenari futuri “real life”

### Virtual Care Team

First point of contact to coordinate care and support for people in times of need. Simple, secure access to care in real-time with reliable healthcare professional

### Connected Care

Information is coordinated and synchronized across new ecosystem of virtual networks from home care to retail clinics to hospitals

### Coordinated Ecosystems

Healthcare ecosystem will be extended for a seamless people centered experience
